## ***PLAYING WITH COLOURS***

The world of sport is made up of a variety of colours and emotions. One look at the ocean of supporters in a stadium will convince you of that. But it's not just the spectators that bring their own colours, but the different kinds of sports themselves. Be it a high-octane thrill fest like the 100m dash or something slow and cerebral - like chess - every sport brings to mind a particular colour.

In this edition of the Nippon Paint Style Guide, we explore the role colours play in sport. And the part they can play in your life as well.

# BASIC GUIDE TO CHOOSING THE RIGHT COLOURS

Although there are no hard and fast rules, there are certain colour combinations that are more appealing. Use the colour wheel to select an inspiration colour scheme that will look great in your home!

**P PRIMARY COLOUR**  
red, blue, yellow

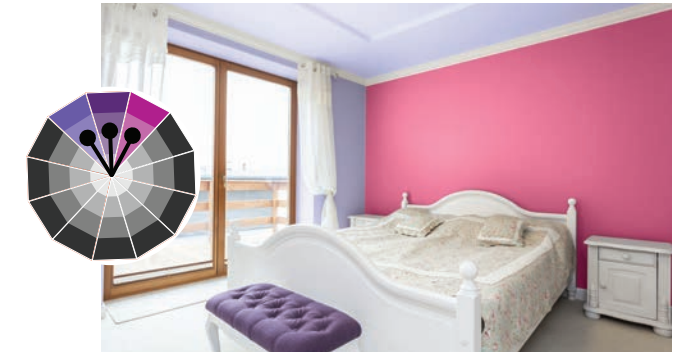

**S SECONDARY COLOUR**  
violet, green, orange

**T TERTIARY COLOUR**  
blue-green, blue-violet, red-violet, red-orange, yellow-orange, yellow-green

Hue	= colour	Tone	= colour + grey
Shade	= colour + black	Tint	= colour + white

## ADJACENT

Mix either a primary or secondary colour with one or two tertiary colours. Choose two or three colours lying next to each other on the colour wheel, within a 90-degree angle. For example, combine reds with red-oranges and oranges.

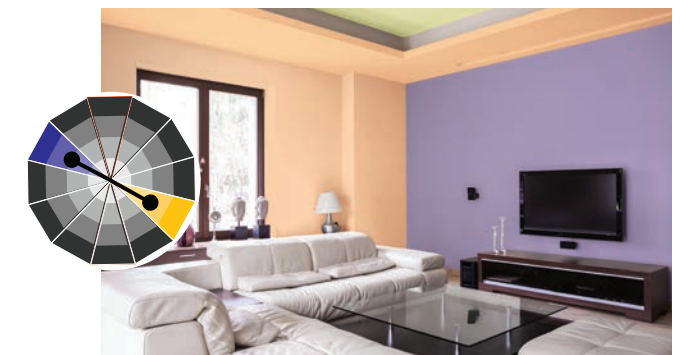

## MONOCHROMATIC

Choose any shade, tint or tone of one colour, for example yellow-greens, to create a simple colour scheme based on the lighter or darker variations of yellow-greens. You could also add neutral colours such as white and grey for extra visual interest.

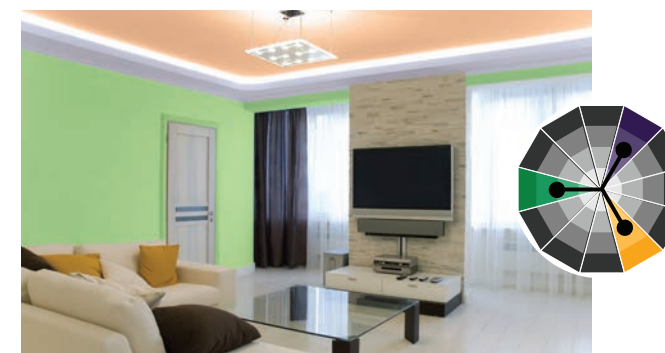

## COMPLEMENTARY

Choose two colours that lie opposite each other on the colour wheel - such as purples and yellows - as the main colours in your colour scheme. The result could be a vivid combination, full of energy, depending on the strength of colour chosen.

## TRIADIC

Use three colours that are equidistant on the colour wheel, such as oranges, greens and violets. For best results, you should use one dominant colour and use the other two as subtle complementing colours.

# *ONE WITH SNOW*

If there's one sport that combines beauty with exhilaration, it's probably skiing. The grace and skill of the athletes set against the white of the snow - it's what makes skiing such a unique watch. No doubt, the setting adds an air of mystery and elegance to proceedings.

That's off-white in a nutshell.

# ***DIVE INTO THE BLUE***

Although a relaxing pastime, swimming is considered to be an extremely rigorous sport, one that pushes both mind and body to the limit. But there's something about the water that has a calming effect on the viewer. Maybe it's got to do with the blue.

Pick blues and blue greens for your home, and your guests will agree too.

# THE GREENER SIDE OF SPORT

Golf may not give you the adrenaline rush of, say, cricket. But the sport has this languid charm about itself that makes one wonder - "Are the players even breaking into a sweat"? Well, the sport demands a great level of skill, but wouldn't you love taking a day off work to just walk across those acres of green? No stress, no hassles - just you, the grass, and maybe even a few birds hopping around.

It's time to welcome the power of green and yellow green into your homes!
