

## STANDARD APPLICATION SYSTEM

For repainting: Clean the surface till it is free from dust, grease and any flaking paint. Any unstable paint is to be removed using a high pressure wash or scraper, whichever is appropriate. Algae or fungus on the wall is to be removed by using a high pressure wash or coir brush and shall be treated with Nippon Paint Walltron Kleanwall. New Plaster: Ensure that the surface is completely cured and dry. Application of cement paint/white cement/lime as an undercoat is not recommended.

## RECOMMENDED PAINT SYSTEM

Sequence	Product	No. of Coats
Primer	Nippon Paint Multi-purpose Wall Sealer/ Exterior Primer	Apply 1 coat and allow it to dry for 4-6 hours
Top Coat	Exterior Emulsion	Apply 2-3 coats in an interval of 4-6 hours

Note: For dark shades, 3 coats are recommended and to be applied with a roller for better hiding.

Post Application Instruction: To enhance the performance of the paint film, clean the exterior surface with clean water every six months.

## SAFETY TIPS

- Read the labels for precautions
- Wear a cap, gloves and suitable eye protection
- Keep paints away from children
- Store remaining paint in a cool, dry, ventilated place
- In case of contact with eyes, rinse immediately with plenty of water. Seek medical advice if pain persists
- On contact with skin, wipe immediately with a cloth and wash with plenty of water and soap
- Close lids of paint cans tightly after use
- Unused paint must not be left uncovered
- Use a garbage bag for all paint or other items you wish to dispose of. Make sure it is placed in a bin which is secure
- Make sure there is adequate ventilation when you are painting. If you can smell vapour, open doors and windows

### WEATHERBOND PRO

is a high performance, pure acrylic exterior painting system which offers outstanding protection for exterior surfaces. The product also offers unique protection against water, algal attack, dust pick-up, hairline crack bridging, efflorescence and extreme weathering. Weatherbond PRO system provides effective waterproofing and anti-carbonation properties.

### WEATHERBOND ADVANCE

is an all-weather protection exterior paint which possesses a unique lamination technology with silicone, providing twice the toughness and durability resulting in supreme protection against harsh weather conditions. It provides excellent resistance to flaking, efflorescence and alkali. It has ultra low VOC ensuring a safe environment.

### DURAFRESH SOLO

is a specially formulated self-priming exterior emulsion paint having systematic UV crosslinking mechanism and dirt pick-up resistance. It exhibits heat ban technology which reduces surface temperature by up to 7°C. It imparts a rich sheen finish and has anti-algal resistance to keep your walls fresh for a longer time.

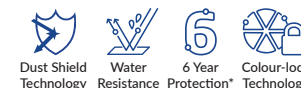

### SUMO XTRA

is a specially formulated water based emulsion with colour-lock technology and water resistant properties that ensure the colour looks bright for a long time.

### SUMO XTRA DUST SHIELD

is a specially formulated water based exterior emulsion that comes with Dirt Pick-up Resistance (DPUR), and colour-lock technology which ensures that the colour looks bright and clean. Its unique water resistant property keeps your exterior walls protected and beautiful for long.

### SAMURAI

is a specially formulated water based acrylic emulsion paint ideally suited for dry and moderately humid climatic conditions. It is anti-peel, anti-fungal, resists fading and has good coverage.

### ATOM FIBRA

is a multi-purpose emulsion paint specially designed for both interior and exterior walls. It is reinforced with microfibrils which give enhanced mechanical strength to the paint film.

### SHOGUN

is a specially formulated acrylic modified based exterior emulsion suitable for dry and less humid weather conditions. Its superior ingredients ensure that the exterior wall is protected from algal and fungal attack, hence keeping it spotless for long.

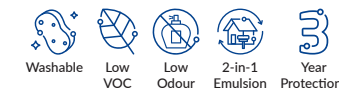

### FLOOR GUARD

is a superior quality paint, which is specifically developed to provide a hard, durable adhesion. It acts as an acrylic emulsion coating for cement and paver blocks. It has excellent alkali resistance properties, and provides protection against weathering elements.

### ATOM 2-IN-1

multi-purpose emulsion is a flat and durable paint, ideal for both interior and exterior surfaces. Developed after extensive R&D and valuable inputs from our decorative partners, this dynamic paint is based on acrylic modified emulsion to deliver maximum performance.

### ROOF COATING EMULSION

is an acrylic paint that is specially formulated for painting and repainting asbestos and roof tiles. It is easy to apply and forms a smooth, tough, durable film with excellent sheen. It is also resistant to fungi, algae, water and dirt.

### SHOGUN STAR

is an exterior emulsion paint specially formulated using modified-acrylic emulsion which provides a high sheen. It is suitable for dry and moderately humid weather conditions. It is based on special encapsulated technology that ensures the protection of the exterior wall from algal and fungal attacks and keeps the wall fresh.

### SUMO XTRA TILE COAT

is an acrylic paint which is specially formulated for painting roof tiles. It is easy to apply and forms a smooth, tough film, which is durable.
