**STYLE GUIDE**

**Colours  
for Change**

# LOOKING BEYOND

Every day brings change. New ideas, technology & perspectives are constantly challenging the status quo and broadening our horizons. Society is recognising the unlimited potential, beauty and capacity for thought in each of us, no matter how we are wired.

It's a happy, inclusive world that we're creating, where the uniqueness of every individual is celebrated. Nippon Paint is proud to be part of this change and brings you a range of colours inspired by young artists on the spectrum.

Presenting

## Colours for Change

An enriching, soul-stirring foray into colours.

# THE COLOURS FOR CHANGE INITIATIVE

Colours for Change is an ongoing and far reaching initiative by Nippon Paint to create a platform to recognise the rich talent of children on the spectrum of learning disabilities, mental and physical challenges. We started by reaching out to 29 institutions in Chennai, Coimbatore, Madurai, Trichy, Tirunelveli & Salem (Tamil Nadu) and Bangalore, Mangalore & Hubli (Karnataka). It was a free flowing exercise and the children were asked to express their thoughts and ideas on canvas, using any art material they preferred.

The response from our young artists was simply overwhelming. Colours for Change received over 650 artworks from Tamil Nadu and 356 from Karnataka, making it a grand total of 1006 artworks.

Over 50 drawings were selected for their style, imagery and colour by panellists, people well known in the field of art & design. These paintings will feature as originals across various media for brand like our annual diary, calendar and this style guide.

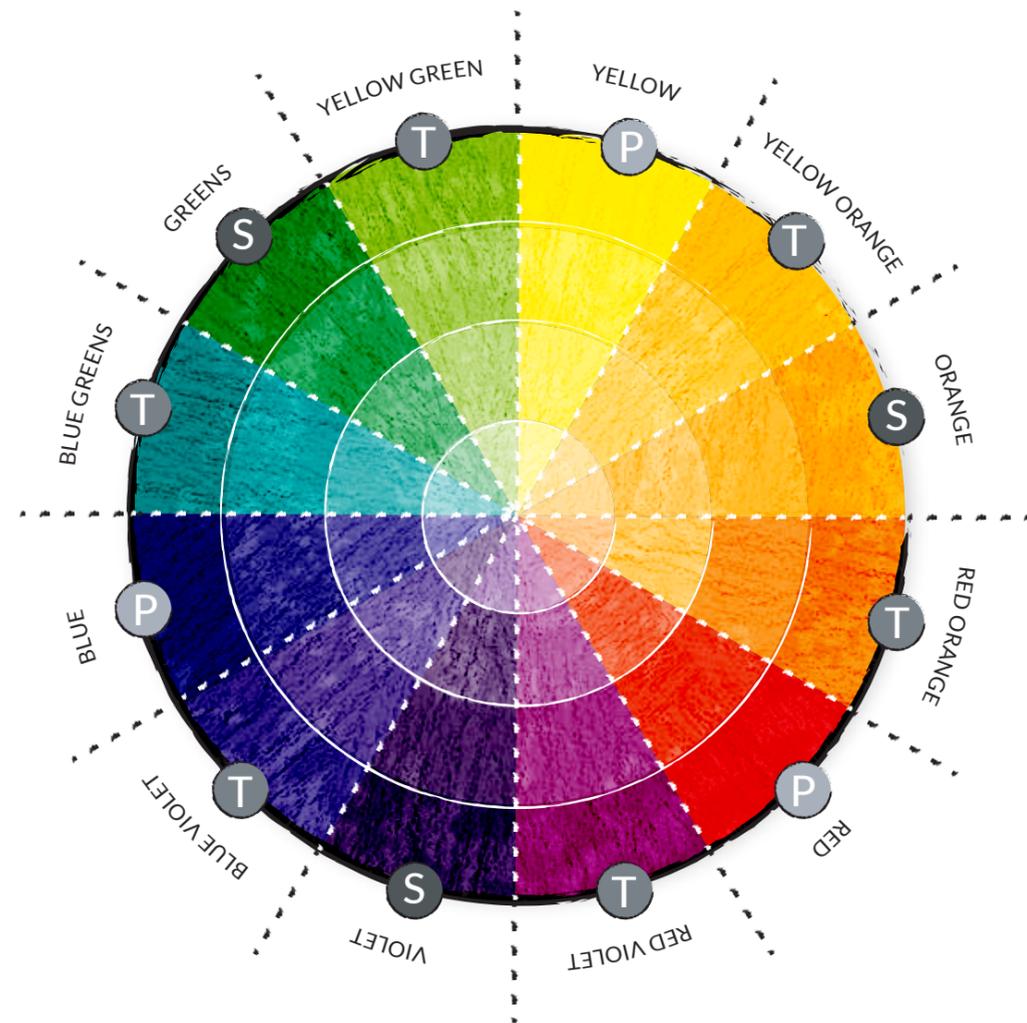

We are inordinately proud of these artists and think it a privilege to share their expressions and vision.

#### Our Panellists:

Mithun Sacheti - CEO of Caratlane  
(A Tanishq Initiative)  
Sharon Apparao - Gallerist  
Ravi K Chandran - Cinematographer  
Sabu Cyril - Art Director and Set Designer  
Bari - Emmy Award Winning Art Director

# BASIC GUIDE TO CHOOSING THE RIGHT COLOURS

Although there are no hard and fast rules, there are certain colour combinations that are more appealing. Use the colour wheel to select an inspiration colour scheme that will look great in your home!

- P PRIMARY COLOUR**  
red, blue, yellow
- S SECONDARY COLOUR**  
violet, green, orange
- T TERTIARY COLOUR**  
blue-green, blue-violet, red-violet, red-orange, yellow-orange, yellow-green

- Shade** colour + black
- Hue** colour
- Tone** colour + grey
- Tint** colour + white

## MONOCHROMATIC

Choose any shade, tint or tone of one colour, for example yellow-greens, to create a simple colour scheme based on the lighter or darker variations of yellow-greens. You could also add neutral colours such as white and grey for extra visual interest.

## ADJACENT

Mix either a primary or secondary colour with one or two tertiary colours. Choose two or three colours lying next to each other on the colour wheel, within a 90-degree angle. For example, combine reds with red-oranges and oranges.

## COMPLEMENTARY

Choose two colours that lie opposite each other on the colour wheel - such as purples and yellows - as the main colours in your colour scheme. The result could be a vivid combination, full of energy, depending on the strength of the colour chosen.

## TRIADIC

Use three colours that are equidistant on the colour wheel, such as oranges, greens and violets. For best results, you should use one dominant colour and use the other two as subtle complementing colours.

# LIMITLESS WHITE

Truly great artists know the power of white. The base of all colours, neutral yet intriguing, and endlessly imaginative.

Hints of white can bring out the richness of other tones, capture the beauty of light or create a cocoon of calm.

Our whites are versatile and celebrate simplicity, clean lines and add a touch of elegance wherever they're used.

# ZING WITH RED

Red is liberating, powerful and commands your attention. Legendary paintings are often those that have made statements in red.

Red is all about a new perspective; doing away with the usual & ordinary. A streak of red unleashes pulsating energy, that stays with you.

Nippon Paint's reds harness this vitality and paint excitement and luxury onto everything they touch.

# UNIQUELY PINK

Each eye has its own interpretation of pink. A subtle shade, it invokes everything from floral notes to celebration to leisure to well-being.

Pink holds its own place, mixing yet standing out; adding lightness & softness wherever it is brushed in.

Embellish your home with our family of pinks; to capture a feeling like none other.

# BLUE PRISMS

From ocean to sky, blue is all around us. Cool and light at one end, intense and mysterious at the other. Blues hold cosmos of meanings and possibilities in them.

A combination of blues is a masterpiece in itself; allowing artists to create subtle layers of tone and meaning.

Reward yourself with a multiverse of blue, for spaces that reflect every aspect of you.

# LUSH GREENS

Humanity links with green at a subconscious level. The favourite shade of mother nature, greens symbolize freshness, abundance and birth.

Greens are favourites of creators to etch and evoke verdant forests, mythical elven worlds and enchanting glades.

These muses have led us to offer you an expansive range of greens that bring the same richness to your home, for every wall and every floor.

# REAL BROWN

Brown is all about centring, bringing your focus to what's real & important. The colour of the Earth, browns imbue solidity and timelessness.

The wisest artists use Brown to contrast other shades and allow for a vivid interplay of colours, for creations that hum with both serenity and spirit.

Our must-have browns help you go wild with colours, to create a palette unlike any other.

# **NIPPON TECH**

## **IN TUNE WITH TOMORROW**

As with art, we are always thinking of the future and how we will be viewed. Our mascots the blobbies, while endearing, also symbolize our commitment to clean, futuristic tech. Their use of hovercrafts, 3D shields and ultra-performance vacuums, is a nod to the innovative mindset that is part of Nippon Paint's DNA.

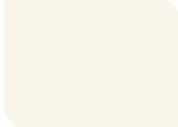

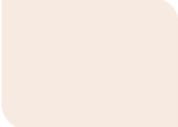

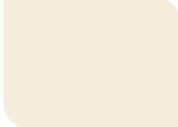

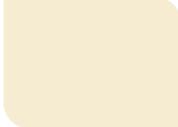

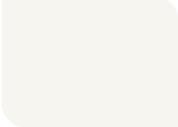

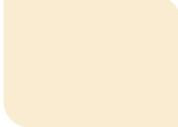

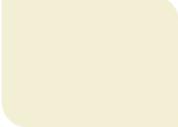

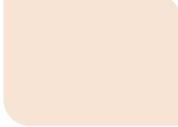

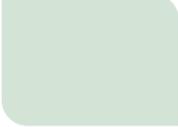

The processes & thinking behind our cutting-edge products are way ahead of the curve. And they are green too! For instance, the Nippon Paint plant in Chennai is the first factory in India to achieve Green Pro and Green Co certifications.

Our paint innovations like Silicone Lamination Technology are aimed at protecting homes from extreme weather conditions. In interiors, the revolutionary Aircare VG contains Active Carbon Technology which converts formaldehyde into water vapour, thereby purifying the air. The same product range also has anti-bacterial properties and Silver Ion Technology which makes the paint safer and homes healthier for families.

# GREEN GENE

A paint is more than something that adds colour to your home. With Going Green as our Mantra, we want to ensure that the Earth retains all its glorious colours and eco-systems.

To fulfill this responsibility, Nippon Paint makes consistent and sustained efforts to implement green measures at every step of manufacturing. This has earned us several awards like the Green Pro and Green Co certifications from the CII. The certification that encourages manufacturers to implement eco-friendly processes in all areas, like product design, raw materials sourcing, manufacturing and recycling.

To ensure a happier environment for all, we offer products that have features like Solar Reflect Technology, Formaldehyde Abatement, Heat Resistance, Water Resistance, Anti-fungal, Near Zero VOC and Odour-less paint.

# EXTERIOR PRODUCTS

## WEATHERBOND PRO

NIPPON PAINT WEATHERBOND PRO is a high performance, pure acrylic exterior painting system which offers outstanding protection for exterior surfaces. The product also offers unique protection against water, algal attack, dust pick-up, hairline crack bridging, efflorescence and extreme weathering. Weatherbond PRO system provides effective waterproofing and anti-carbonation properties.

## WEATHERBOND ADVANCE

NIPPON PAINT WEATHERBOND ADVANCE is an all weather protection exterior paint which possesses a unique lamination technology with silicone, providing twice the toughness and durability resulting in supreme protection against harsh weather conditions. It provides excellent resistance to flaking, efflorescence and alkali. It has ultra low VOC ensuring a safe environment.

## DURAFRESH SOLO

NIPPON PAINT DURAFRESH SOLO is a specially formulated self-priming exterior emulsion paint having systematic UV crosslinking mechanism, exhibiting excellent balance of flexibility and dirt pick-up resistance. Its heat ban technology reduces surface temperature by up to 7°C. It imparts a rich sheen finish and has anti-algal resistance to keep your walls fresh for a longer time.

## SUMO XTRA

NIPPON PAINT SUMO XTRA is a specially formulated water-based exterior emulsion with colour-lock technology which ensures that the colour stays bright and clean. Its unique water resistant property keeps your exterior walls protected and beautiful for long.

## SUMO XTRA DUST SHIELD

NIPPON PAINT SUMO XTRA DUST SHIELD is a specially formulated water based exterior emulsion with colour-lock technology which ensures that the colour looks bright and clean. Its unique water resistant property keeps your exterior walls protected and beautiful for long. Its new and improved formula provides very good Dirt Pick-up Resistance (DPUR).

## SAMURAI

NIPPON PAINT SAMURAI is a specially formulated water-based acrylic exterior emulsion paint ideally suited for dry and moderately humid climatic conditions. It is anti-peel, anti-algal and resists fading. It is durable and offers good hiding and spreading.

## SHOGUN STAR

NIPPON PAINT SHOGUN STAR is an exterior emulsion paint specially formulated using modified-acrylic emulsion which provides a high sheen. It is suitable for dry and moderately humid weather conditions. It is based on special encapsulated technology that ensures the protection of the exterior wall from algal and fungal attacks and keeps the wall fresh.

# EXTERIOR PRODUCTS

## SHOGUN

NIPPON PAINT SHOGUN is a specially formulated acrylic modified exterior emulsion paint suitable for dry and less humid weather conditions. Its superior ingredients ensure that the exterior wall is protected from algal and fungal attack hence keeping it fresh for long.

## SHOGUN EZEE\*

NIPPON PAINT SHOGUN EZEE exterior emulsion is a specially formulated acrylic-modified based exterior emulsion paint suitable for exterior dry and moderate humid weather conditions. It provides value for money.

## FLOOR GUARD

NIPPON PAINT FLOOR GUARD is a superior quality paint, which is specifically developed to provide a hard, durable adhesion. It acts as an acrylic emulsion coating for cement and paver blocks. It has excellent alkali resistance properties, and provides protection against weathering elements.

# ROOF EMULSION

## ROOF COATING

NIPPON PAINT ROOF COATING EMULSION is an acrylic paint that is specially formulated for painting and repainting asbestos and roof tiles. It is easy to apply and forms a smooth, tough, durable film with excellent sheen. It is also resistant to fungi, algae, water and dirt.

## SUMO XTRA TILE COAT

NIPPON PAINT SUMO XTRA TILE COAT is an acrylic paint which is specially formulated for painting roof tiles. It is easy to apply and forms a smooth, tough, durable film and provides resistance to dust pick-up.

# INTERIOR PRODUCTS

## KIDZ

### NIPPON PAINT

KIDZ all-in-one paint is specially formulated for children. It has three unique features and technologies - clean air due to active carbon technology, safe to touch due to silver ion technology and superior washability due to anti-stain technology.

## SATIN GLO PRIME\*

### NIPPON PAINT

SATIN GLO PRIME luxury interior emulsion is based on pure acrylic emulsion formulated to impart high sheen to decorate interior walls. It possesses excellent washability and stain resistance to keep the walls beautiful for long. Its low VOC ensures safe and healthy interiors. Its anti-bacterial property provides proven protection against bacteria.

## AIRCARE VG

### NIPPON PAINT

AIRCARE VG is an ultra luxury anti-microbial and anti-formaldehyde interior emulsion that helps to create a safe and more hygienic indoor environment. This breakthrough product contains Unique Absorption Technology (UAT) that continually absorbs harmful formaldehyde from the air and is embedded in polymer backbone, resulting in clean fresh air. It is enriched with Silver Ion Technology which gives superior anti-bacterial performance and is effective against viruses. It is ideal for people who are allergic to formaldehyde and paint odour.

## SATIN GLO+

### NIPPON PAINT

SATIN GLO+ is a luxury interior wall finish specially formulated to impart a rich satin like sheen to decorate interior walls. It possesses excellent washability and stain resistance to keep the walls beautiful for long. Its anti-bacterial property provides proven protection against bacteria and it also contains ultra-low VOC ensuring safe and healthy interiors.

## SATIN GLO AURA\*

### NIPPON PAINT

SATIN GLO AURA is an interior emulsion with special polymer technology to impart soft sheen to decorate interior walls. It possesses excellent washability and stain resistance to keep the walls beautiful for long. Its low VOC ensures safe and healthy interiors.

## SPOTLESS NXT

### NIPPON PAINT

SPOTLESS NXT premium interior emulsion is a specially formulated acrylic emulsion paint that repels household stains such as tea, coffee, juices, ink, hand prints, etc. Its unique 'Swan-back' technology makes it highly resistant to the penetration of water-borne stains, and causes them to form beads. This 'beading effect' ensures stains don't stick and can be removed easily without damaging the paint.

# WOOD & METAL

## BODELAC

NIPPON PAINT BODELAC is a specially blended, alkyd-based synthetic enamel. It has no added lead or chrome compounds, thus making it safe. It has excellent gloss retention and is suitable for a wide variety of interior and exterior metal, wood and masonry surfaces.

## SATIN ENAMEL

NIPPON PAINT SATIN ENAMEL is a specially blended enamel paint that protects and beautifies interiors, exteriors, wood, metal and masonry surfaces. It imparts a rich, satin finish with a soft sheen and forms a layer which is tough, washable and long-lasting. It is resistant to alkali, stains and water.

## AQUA BODELAC\*

NIPPON PAINT AQUA BODELAC water-based semi-gloss enamel provides rich satin finish and can be used for walls and masonry surfaces. It is safe, low odour, low VOC with excellent washability and durability.

# WOOD

## CLEARTONE

NIPPON PAINT CLEARSTONE PU is a two-pack polyurethane finish which protects the wood and maintains its natural beauty. It comes in gloss and matt finishes for multiple surfaces. Its tough film ensures no scratches and stains on the wood. The acid and alkali resistant property protects the surface from household cleansers. It is resistant to UV, algal and fungal attacks.

Available for both interior & exterior.

## MELAMIC

NIPPON PAINT MELAMIC is a specially formulated, solvent-based, two-pack transparent wood finish for interiors. Its superior low odour formulation not only protects wood and veneers from scratches and stains but also enhances its aesthetics.

Available for interior.

## WOOD MAGIC

NIPPON PAINT WOOD MAGIC is a highly durable, single pack polyurethane-based paint that beautifies and protects wood surfaces. While it enhances the elegant and rich look of natural wood, it also protects furniture for long periods.

Available for both interior & exterior.

# PRIMERS / UNDERCOATS

## AQUA PRIMER

NIPPON PAINT AQUA PRIMER for all surfaces can be used on wood, wall and metal surfaces, provides superior bonding and enhances durability of top coat.

## MULTI PURPOSE WALL SEALER

NIPPON PAINT MULTI PURPOSE WALL SEALER is a water-based wall sealer specially formulated to provide excellent adhesion and wall sealing. This product is suitable for both interior and exterior, masonry and gypsum surfaces. It bonds well with cement and plastered surfaces, thus enhancing the life of the top coat. It has superior anti-algal and anti-fungal properties.

## DR. BOND

NIPPON PAINT DR. BOND efflorescence resistant sealer is a water-based penetrating sealer for concrete masonry and lime based surfaces. The product penetrates below the substrate surface and blocks lime from coming on to the surface.

## LATEX INTERIOR PRIMER

NIPPON PAINT LATEX INTERIOR PRIMER is water-based and is formulated to provide good adhesion to interior masonry and cement surfaces. It has good hiding properties and is easy to apply.

## LATEX EXTERIOR PRIMER

NIPPON PAINT LATEX EXTERIOR PRIMER is water-based and is specially formulated for exterior cement, concrete and plastered surfaces. Its unique formula provides extra protection to the top coat. It is also algal and fungal resistant.

# INTERIOR TEXTURE

## MOMENTO ELEGANT

## MOMENTO ENHANCER

## MOMENTO DZINE

## ATOM FIBRA

## ATOM 2-IN-1

NIPPON PAINT MOMENTO ELEGANT allows you to create a stylish impression with luxurious matte textures and rich colours.

NIPPON PAINT MOMENTO ENHANCER lets you glaze over your favourite coloured walls to create serene winter masterpieces of frost texture bathed in snow, pearl or gold lustre.

NIPPON PAINT MOMENTO DZINE (Momento Metallics) brings you a paint base that allows you to create a plethora of dzine patterns in a range of shades including metallics like gold and silver. They are unique, letting your creativity shine through and allowing you to create infinite patterns. Go ahead and bring perfection to your home.

NIPPON PAINT ATOM FIBRA is a multi-purpose emulsion paint specially designed for both interior and exterior walls. It is reinforced with microfibres which gives enhanced mechanical strength to the paint film.

NIPPON PAINT ATOM 2-IN-1 multi-purpose emulsion is a flat and durable paint which makes it ideal for both interior and exterior surfaces. Following extensive R&D and by listening to our decorating partners' inputs, this dynamic paint has been developed for maximum performance which is based on acrylic modified emulsion.

# WALLTRON - CONSTRUCTION SOLUTIONS

## HYDROSHIELD DAMPPROOF

## HYDROSHIELD DAMPSEAL

## HYDROSHIELD SEALER

## HYDROSHIELD EMULSION

NIPPON PAINT WALLTRON HYDROSHIELD DAMPPROOF is a fibre reinforced elastomeric coating used for waterproofing. It forms a thick elastic film which covers cracks and blocks water, thus offering excellent waterproofing.

NIPPON PAINT WALLTRON HYDROSHIELD DAMPSEAL is a fibre reinforced elastomeric coating used as a waterproofing basecoat for vertical walls (waterproofing primer).

NIPPON PAINT WALLTRON HYDROSHIELD SEALER is an acrylic based penetrating primer designed for fresh concrete surfaces or highly alkaline substrate. It resists efflorescence and provides excellent sealing.

NIPPON PAINT WALLTRON HYDROSHIELD is a self cross-linking acrylic emulsion based coating. It is used as a waterproof and durable coating to protect exterior walls. It has excellent waterproofing, elasticity, breathability and crack bridging properties.

# WALLTRON - CONSTRUCTION SOLUTIONS

## CRACK FILL PASTE

NIPPON PAINT WALLTRON N-SEAL CRACK FILL PASTE is composed of a high quality weather durable acrylic emulsion polymer, carefully selected fillers, fibers and additives for interior as well as exterior surfaces. It is an easy to apply, single pack, ready-to-use, water resistant, flexible material for filling cracks in plastered surfaces. It has excellent bonding, durability, and aesthetic appearance.

- Paste form, non sagging
- Flexibility
- Eco-friendly
- Paintability
- Non-staining
- Bonding
- Durability
- Non-toxic

## ENHANCER

NIPPON PAINT WALLTRON ENHANCER is a ready-to-use, high solid, high performance polymer based on acrylic co-polymer. It shows excellent waterproofing property when mixed with cement.

## KLEANWALL

NIPPON PAINT WALLTRON KLEANWALL is a fungicidal solution recommended for highly infested exterior walls.

## WALL+

NIPPON PAINT WALLTRON WALL+ is a ready-to-use, high performance SBR based latex.

# WALLTRON - CONSTRUCTION SOLUTIONS

## STYLFIX TILE GROUT

NIPPON PAINT WALLTRON STYLFIX TILE GROUT is a cement based, single component, polymer modified non-shrink tile grout for filling tile joints up to a width of 4mm. It has excellent water repelling, adhesion and workability properties.

## STYLFIX TA1

NIPPON PAINT WALLTRON Stylfix Tile Adhesive TA1 is a single component Grey cement based polymer modified general purpose tile adhesive for fixing tiles in interior/exterior areas.

- Ease of Application
- Superior Durability
- Quick Curing
- Optimal Setting Time
- Superior Adhesion
- Can be used on new as well as old construction floors

## STYLFIX TA2

NIPPON PAINT WALLTRON Stylfix Tile Adhesive TA2 is a single component Grey cement based polymer modified general purpose tile adhesive for fixing tiles in interior/exterior areas. It can be used for tile on tile application for walls and floors.

- Ease of Application
- Superior Durability
- Quick Curing
- Optimal Setting Time
- Superior Adhesion
- Can be used on new as well as old construction for walls and floors

## N-SEAL

NIPPON PAINT WALLTRON N-SEAL is a cement-based, polymer rich powder mix, used to fill cracks of 3-5mm thickness on plaster surfaces.

## FR-PUTTY

NIPPON PAINT WALLTRON FR-PUTTY is an efflorescence resistant, white cement-based, premium quality modified putty.

- It is generally used for tiles which has porosity less than or equal to 3%
- Vitrified tiles
- Heavy Tiles like Marble & Granite. Additional metal anchoring is recommended for exterior application of heavy tiles.

# WALLTRON - CONSTRUCTION SOLUTIONS

## WP+

NIPPON PAINT WALLTRON WP+ is specially formulated using selected surface active plasticising agents, chemicals and additives for cement concrete, mortar and plasters. It makes concrete cohesive, prevents segregation and reduces water permeability.

- Better compatibility
- Resists corrosion
- Permeability
- Shrinkage
- Workability
- Compressive strength

## HYDROSHIELD DAMPSMART

NIPPON PAINT WALLTRON HYDROSHIELD DAMPSMART is a specially designed waterproof coating for damp surfaces which when cured forms a tough yet elastic film which covers cracks and blocks water. It is used for patch repair of internal, external walls and temporary patch repair of roofs.

- Waterproofing
- Good adhesion
- Crack bridging
- Tintable in pastel shades
- Toughness and elasticity
- User-friendly
- Suitable for interior and exterior use

## HYDRO BLOCK 2K

NIPPON PAINT WALLTRON HYDRO BLOCK 2K is a two component cementitious, flexible waterproofing coating. It is composed of best quality portland cement, properly selected and graded aggregates, additives and acrylic polymer as a binder. It is applied to waterproof and protect concrete structures.

- Flexibility
- Waterproof
- Adhesion
- Crack bridging
- Efflorescence resistant
- Anti-carbonation
- Seamless coat
- Application - easy to apply

## AQUASIL

NIPPON PAINT WALLTRON AQUASIL is a water-based, high performance silicone clear, waterproofing compound. It has excellent hydrophobicity, so it does not allow water to penetrate the surface, while giving the product excellent permeability to aid evaporation of blocked moisture from inside.

Where to Use	Waterproofing of concrete and sand-cement mortars used in concrete and plastering	To be applied on interior walls, exterior walls, concrete or plastered surface, terraces, parapet and balconies	Suitable for use on new & old concrete/mortar/plaster surface	Stone, porous substrate or plaster surface
Drying Time	30-600 mins	4-6 hours	4-6 hours	6 hours
Dosage	100ml per 50kg bag of cement	2.0-2.5 sq mt/kg/2 coats or 4-5 sq mt/kg/per coat	7.5-8 sq ft/kg/2 coats	70-100 sq mt
Dilution	NA	160 - 180 micron in 2 coats when applied as recommended	Mix ratio (powder : liquid), by weight 2:1	1:9 with water
Pack Sizes	100ML, 200ML, 1L, 5L, 10L & 20L	1L, 5L, 10L & 20L	3Kg & 15Kg	250ML & 1L

\*Actual coverage is dependent on the substrate condition

# MS POLYMER SEALANTS

## VT-620 / VT-620S LM MS Sealant

An elastomeric hybrid sealant based on advanced MS Polymer technology. It is a low-modulus sealant with high movement capability and excellent weathering characteristic.

- ASTM C920 (Class 50) compliant
- ISO 11600 (F Class 25 LM) compliant
- Better weathering resistance than PU sealants
- Paintable
- Low static charge – Less dirt streaking
- Silicone oil-free – Non-staining on adjacent substrates
- Isocyanate-free – No air bubbling
- Solvent-free – No shrinkage

## VT-624 / VT-624S MS Construction Sealant

A standard elastomeric sealant based on advanced MS Polymer technology. It is a low modulus sealant with ±25% movement capability with good weather resistance. It is suitable for sealing fillet joints (wall to wall, wall to floor junctions) as part of a waterproofing system.

- ASTM C920 (Class 25) compliant
- Good UV resistance
- Paintable
- Isocyanate-free – No air bubbling
- Solvent-free – No shrinkage
- Cost effective

## VT-625 / VT-625S Ultimate Construction Sealant

A premium elastomeric hybrid sealant based on advanced MS Polymer technology with excellent UV resistance. It is a low-modulus sealant with high movement capability.

- Excellent UV resistance – 10-year warranty
- ASTM C920 (Class 50) compliant
- Low static charge – Less dirt streaking
- Paintable
- Silicone oil-free – Non-staining on adjacent substrates
- Isocyanate-free – No air bubbling
- Solvent-free – No shrinkage
- Matte finish

## VT-626 / VT-626S Green Sealant

An environmentally friendly elastomeric sealant based on advanced MS Polymer. It is a low-modulus sealant with high movement capability.

- Cleanroom Suitable Material (CSM) ISO-ACCm Class -7.1 Qualification
- ASTM C920 (Class 25) compliant
- Good UV resistance
- Paintable
- Low static charge – Less dirt streaking
- Silicone oil-free – Non-staining on adjacent substrates
- Isocyanate-free – No air bubbling
- Solvent-free – No shrinkage
- Singapore green building product labelling scheme complaint

# MS POLYMER SEALANTS

## VT-622 All-Stik MS Clear Sealant

A clear colour MS Polymer sealant formulated for all bonding and sealing applications where long term reliability is required. It will bond to form a durable, flexible, waterproof seal.

- Crystal clear
- Bonds various materials
- Primerless bonding to most surfaces

## VT-621 All Purpose MS Sealant

A medium modulus, elastomeric hybrid sealant based on advanced MS Polymer technology. It will form a high strength elastic seal upon curing.

- High strength and elastic
- Good UV resistance
- Paintable
- Isocyanate-free – No air bubbling
- Solvent oil-free – No shrinkage
- Primerless bonding to most substrates

## VT-628 Power Screw- Instant Grab Adhesive Sealant

An instant-grab adhesive based on advanced MS Polymer technology. It holds the substrate instantly, reducing the need for bracing requirement.

- Instant grab (no support required)
- High strength bonding to most substrates
- Primerless bonding to most substrates

## VT-638 MS Seam Sealant

A high-performance, elastomeric hybrid sealant based on advanced MS Polymer technology. It has fast-drying speed, good UV, weather, and temperature resistance.

- High strength and elastic
- Fast drying
- Paintable
- Primerless bonding to most substrates
- Isocyanate-free – No air bubbling
- Solvent-free – No shrinkage

### Applications

Sealing concrete joints (precast wall panels, expansion joints, control joints, FRC boards etc.), window frame perimeter etc. Other applications sealing anodized aluminum, masonry, porcelain, coated metal, finished wood, epoxy and polyester panels, UPVC, polystyrene and stainless steel.

Sealing fillet joints (wall & floor movement junctions), concrete joints (precast wall panels, expansion joints, control joints etc.), window frame perimeter etc.

Sealing façade cladding (aluminum composite panel (ACP), metal panels, natural stones etc.) and concrete joints (expansion joints, control joints etc.) for construction applications.

Suitable for electronics cleanroom applications, sealing concrete joints (expansion joints, control joints, FRC boards etc.), window frame perimeter, etc. Other applications include sealing of anodized aluminum, masonry, porcelain, coated metal, finished wood, epoxy and polyester panels, UPVC, polystyrene, and stainless steel.

### Applications

Ideal for bonding of plastics (nylon, PVC etc.), metals (stainless steel, aluminium, copper etc.), rubbers (natural rubber, synthetic rubber, silicone rubber etc.), natural materials (wood, polywood, leather, paperboard etc.) and inorganics (concrete, mortar, tile, glass, porcelain etc.)

Suitable for high strength sealing or bonding in construction, automotive, marine, and industrial applications. It works on various substrates like plastic, metal, rubber, natural materials (wood, polywood, leather, cloths, paperboard etc.) & inorganics (concrete, mortar, natural stone, tile, glass, porcelain etc.).

Suitable for high strength bonding in various construction, household, industrial, marine, and automotive applications. It is also widely used in coach work and shipbuilding industry.

Ideal for making permanent elastic seals of high bonding strength, especially interior and exterior body seams and joints of automobile/truck/coach/train/ship and boat. It is also elastic bonding in construction and industrial applications.

Available Colours	White, Grey & Black	White, Grey & Black	Matte Black, Matte Grey & Matte White	White, Grey & Black	Available Colours	Clear	White, Grey & Black	White	White & Beige
Content	290 ml (cartridge) & 600 ml (sausage)	Content	290 ml	290 ml	290 ml	290 ml

# MS POLYMER SEALANTS

## VT-652 High Performance MS Sealant

A high-performance, high modulus, industrial-grade, elastomeric hybrid sealant based on advanced MS Polymer technology.

- High strength and durable bonding
- Paintable
- Isocyanate-free – No air bubbling
- Solvent-free – No shrinkage
- Primerless bonding to most substrates

## VT-665 Primerless Auto Glass Sealant

A moisture-cured, high modulus MS Polymer sealant formulated for windscreen bonding applications. It has high green strength and excellent resistance against weathering and temperature extremes. It is solvent-free and will not shrink after curing.

## VT-630 / VT-630S MS Flooring Adhesive

An eco-friendly wood flooring adhesive formulated with advanced MS Polymer technology. It cures on exposure to atmospheric moisture, and quickly forms a tenacious but elastic bond on wood flooring and wall decorative materials. When cured, it is waterproof and is not adversely affected by exposure to moisture or water. Its elastic characteristic allows the wood floor to expand and contract without adhesion failures. Its non-slump formula enables notched trowel ridges to hold firm, bridging gaps between wood flooring and sub floor and reducing floor hollowness problem. Since it does not contain water or solvent, it will not cause dimensional changes in wood. It is also safe and has a very low VOC content.

- Resistant to aging
- Water-free - No wood swelling effect
- Solvent and isocyanate-free
- Low odour and low VOC
- Notched trowel ridges hold firm
- Rapid strength build-up and short curing time
- Easy surface clean up
- Non-flammable and non-hazardous

## VT-632 / VT-632S Artificial Grass Adhesive

A one-component, MS Polymer adhesive for bonding artificial grass/synthetic turf on various subfloor substrates or joint strips. It is a green product, meeting SCAQMD VOC limit and is recommended for green buildings. It does not contain any solvents (will not damage bonded substrates), water (no glue-line shrinkage), or isocyanates (non-hazardous). It is specially formulated to have good UV resistance and water-resistant bonding for outdoor application.

- Indoor and outdoor applications
- Green in color
- Low odour and low VOC
- Notched trowel ridges hold firm
- Can be applied onto damp substrate
- Fast initial grab and curing time
- Non-flammable, non-hazardous

# ACRYLIC SEALANTS

## VT-220 / VT-220S Seal-All-Gaps

An environmentally friendly acrylic sealant for general purpose sealing applications. It is paintable and formulated for sealing gaps and joints where slight movements or vibrations are expected.

- LEED v4.1 EQ Credit: Low-Emitting Materials compliant
- Paintable
- Permanently flexible
- Easy clean up
- Singapore green building product labelling scheme compliant

## VT-222 All Purpose Gap Sealant

An economical acrylic sealant for general purpose sealing applications. It is paintable and formulated for sealing gaps and joints where slight movements or vibrations are expected.

- ASTM C920 (Class 12.5) compliant
- Paintable
- Economical
- Permanently flexible

## VT-226 GP Gap Sealant

An economical acrylic sealant for general purpose sealing applications. It is paintable and formulated for sealing gaps and joints where slight movements or vibrations are expected.

- Paintable
- Economical
- Permanently flexible

## VT-223 Ultra Flex Gap Sealant

A premium grade high elastic acrylic sealant for both external and internal sealing applications. It is formulated with enhance UV resistant property and can withstand up to 25% movement.

- LEED v4.1 EQ Credit: Low-Emitting Materials compliant
- ASTM C920 (Class 25) compliant
- Exterior and interior sealant applications
- Paintable
- Easy clean up
- Permanently flexible

Applications	Suitable for high strength bonding in various construction, automotive, and industrial applications, especially applications that will subject to dynamic stresses.	Specially formulated for windscreen bonding applications. Suitable for glass bonding in trains and coachwork.	Ideal for bonding wood floors to concrete, plywood, cured levelling compounds, moisture vapour barrier, OSB (underlayment grade), particle board, rubber underlay, gypsum board, ceramic tiles, stone, terrazzo, radiant heated subfloors, metal decking, steel, and aluminium.	Various types of artificial grass, synthetic turf, or carpet (polypropylene, rubber, polyurethane; tufted or woven), as well as various types of subfloor substrates.	Applications	General sealing applications (door and window joints, cabinet and wardrobe installation, skirting of wood flooring etc.). Suitable for various substrates (metal, PVC, wood, concrete, gypsum boards, reinforced cement boards, marble etc.).	General sealing applications (door and window joints, cabinet and wardrobe installation, skirting of wood flooring etc.). Suitable for various substrates (metal, PVC, wood, concrete, gypsum boards, reinforced cement boards, marble etc.).	General sealing applications (door and window joints, cabinet and wardrobe installation, skirting of wood flooring etc.). Suitable for various substrates (metal, PVC, wood, concrete, gypsum boards, reinforced cement boards, marble etc.).	Sealing of building joints that are subject to movement (door and window joints, cabinet and wardrobe installation, skirting of wood flooring, etc.). Suitable for various substrates (metal, PVC, wood, concrete, gypsum boards, reinforced cement boards, marble, etc.).

# ACRYLIC SEALANTS

## VT-224 Rainbow Seal

An acrylic sealant with a wide variety of colours for general purpose sealing applications. It is paintable and formulated for sealing gaps and joints where slight movements or vibrations are expected.

- Various colors available
- Dries true to wet color
- Permanently flexible

## VT-225 Rapid Drying Gap Sealant

A premium grade acrylic sealant formulated for fast paint over time (10 minutes). It is paintable and formulated for sealing gaps and joints where movements or vibrations are expected.

- ASTM C920 (Class 12.5) compliant
- 10 minutes paint over time
- Permanently flexible
- Easy clean up

# CAULKING MATERIALS

## VT-240 / VT-244 Awning Caulk

An oil-based caulk formulated to bond various types of common construction materials without primer. It has excellent adhesion, good durability and low shrinkage.

- Outstanding durability
- Weatherproof
- Bonds most materials

## VT-241 Vital Coolroom Mastic

A non-drying, butyl rubber-based mastic that does not harden but rather remains paste-like, permanently soft. It has excellent water vapour transmission and cold temperature resistance.

- Moisture resistant
- Non-skinning
- Excellent adhesion

# CONSTRUCTION / PANEL ADHESIVE SEALANT

## VT-230 Vital Nails

A high-performance, paste-like construction adhesive specially formulated to bond a variety of construction materials. It will not slump on vertical surfaces.

- Mirror and polystyrene-safe
- Strong initial grab
- Non-drip paste
- Excellent adhesion on most substrates

## VT-231 Heavy Duty

A heavy-duty construction adhesive formulated for instant grab and holds projects in place instantly, reducing bracing requirement. It bonds most construction materials and will not slump on vertical surfaces.

- Professional choice
- Non-drip paste
- Instant grab
- Bonds most materials

## VT-233 Green Nails

A water-based, low VOC, panel adhesive formulated for good initial grab and durable bonding. It is fast curing and is paintable.

- Low VOC compliant
- High initial grab
- Non-drip paste
- Paintable

## VT-234 Multi Purpose

A high performance, construction adhesive formulated to bond a variety of common construction materials. It has strong initial grab, excellent adhesion, will not slump on vertical surfaces, and works well in cold temperature.

- Cold weather applications
- Non-drip paste
- Excellent adhesion

Applications	With a wide variety of colour, one can match the colour of various construction materials. General sealing applications (door and window joints, cabinet and wardrobe installation, skirting of wood flooring etc.). Suitable for various substrates (metal, PVC, wood, concrete, gypsum boards, reinforced cement boards, marble etc.).	Ideal for sealing applications where a fast paint over time is required. It also good for general sealing applications (door and window joints, cabinet and wardrobe installation, skirting of wood flooring, etc.). Suitable for various substrates (metal, PVC, wood, concrete, gypsum boards, reinforced cement boards, marble, etc.).	Ideal for general sealing applications with minimal movement (containers, roofs etc.). It also exhibits excellent adhesion to metal, wood, glass, ceramic etc.	Well-suited for sealing cold room and other pre-fabricated construction applications. Ideal for sealing most plastics, metals, glass, masonry and wood.	Applications	<b>Applications:</b> Ideal for bonding most construction materials: wood, particle board, metal, concrete, fibre-reinforced cement board, ceramics, bricks, flooring panels. Can be used on polystyrene and mirror.	<b>Applications:</b> Ideal for bonding most construction materials: wood (wet, treated etc.), plywood, particleboard, hardboard, metal, concrete, polyurethane foam, stone, ceramic and most large panel substrates.	<b>Applications:</b> Ideal for bonding most construction materials: wood, metal, glass, plastic, stone, ceramic, plasterboard and brick. Typical applications include adhering wall panels, ceramic tiles repair, and batten installation.	<b>Applications:</b> Ideal for bonding most construction materials: wood, particle board, metal, concrete, fibre-reinforced cement board, ceramics, bricks, flooring panels. Can be used on polystyrene, polyurethane foam and mirror.
Available Colours	White, Black, Grey, Brown, Light Brown, Dark Brown, Teak, Merbau, Cherry, Beige, Terracotta, Coffee, Greenish Grey & Barley	White	White, Grey & Black	White	Available Colours	Brown	Beige	Off-white	Reddish Brown

# CONSTRUCTION / PANEL ADHESIVE SEALANT

## VT-235 Tub Surround

A high performance, construction adhesive formulated for good steam, heat, and water resistance. It has strong initial grab, excellent adhesion and offers long working time.

- Safe for most plastics and foams
- Steam, heat and water resistant
- Long working time
- Excellent adhesion

## VT-236 V-Bond

A high performance construction adhesive specially formulated to bond non-porous substrates, such as Aluminum Composite Panel (ACP) and metal panel. It is also suitable to bond a variety of other common construction materials. It has strong initial grab, superior adhesion, and will not slump on vertical surfaces.

- Excellent adhesion for all metal substrates (non-porous)
- Strong initial grab
- Bonds most materials

## VT-232 Eco Nails

A low-VOC construction adhesive formulated to comply with SCAQMD rule #1168. It has strong initial grab on most construction materials, excellent adhesion, and will not slump on vertical surfaces.

- LEED v4.1 EQ Credit: Low-Emitting Materials compliant
- Non-drip paste
- Strong initial grab
- Bonds most materials
- Singapore green building product labelling scheme complaint

# DUCT SEALANTS

## VT-282 Air Duct Sealant

A smooth solvent-based indoor/outdoor air duct sealant for sealing fabricated joints, and other types of air ducts. It performs as a tough and flexible adhesive and sealant on the joints and seams, thereby effectively blocks the infiltration of gases, dust and other contaminants and the exfiltration of conditioned air. It is able to accommodate minor vibration and movement, stays flexible and does not crack.

- Fast cure
- Economical
- Excellent workability
- Crack and peel resistant
- Slump resistant
- Minimal shrinkage
- High solid content
- Indoor and outdoor usage

## VT-284 High Performance Duct Sealant

A solvent-based indoor/outdoor air duct sealant for sealing fabricated joints and other types of air ducts where the duct systems will be subject to frequent oil or chemical contamination. It performs as a tough and flexible adhesive and sealant on the joints and seams, thereby effectively blocks the infiltration of gases, dust and other contaminants and the exfiltration of conditioned air. It works in heated environments as it can withstand service temperature up to 70 °C.

- Fast cure
- Weather, oil and chemical resistant
- Excellent workability
- Crack and peel resistant
- Slump resistant
- Minimal shrinkage
- High solid content

## VT-286 Water-based Duct Sealant

A water-based indoor/outdoor air duct sealant for sealing fabricated joints and other types of air ducts. It performs as a tough and flexible adhesive and sealant on the joints and seams, thereby effectively blocks the infiltration of gases, dust and other contaminants and the exfiltration of conditioned air. Excellent coverage rate can be achieved with easy brush-on application, which helps reduce installation cost.

- Conforms to FDA 21 CFR 177.2600
- LEED v4.1 EQ credit: Low-emitting materials compliant
- Low VOC and low odour
- Paintable
- Excellent workability
- Crack and peel resistant
- Slump resistant
- High solid content
- Low shrinkage

Applications

Suitable for installation of PVC and ABS tub surrounds. Ideal for bonding most construction materials: wood, particle board, metal, concrete, fibre-reinforced cement board, ceramics, bricks, flooring panels.

Suitable for Aluminum Composite Panel (ACP) and metal panel installations. Ideal for bonding most construction materials: wood, particle board, metal, concrete, fiber-reinforced cement board, ceramics, bricks, flooring panels.

Ideal for bonding most construction material: wood, particleboard, masonry, metal, concrete, fibre-reinforced cement board, bricks, flooring panel. Shows excellent adhesion for bonding raised access floor pedestals to cement floor screed (tested with CISCA 2007-Section 6: Pedestal Overturning Moment Test).

Applications

Ideal for sealing fabricated joints and seams of sheet metal air ducts, fibreglass duct board, thermal insulation, crawl space vapour barriers, house wrap, and other types of air ducts.

Ideal for sealing fabricated joints and seams of sheet metal air ducts, fibreglass duct board, thermal insulation, crawl space vapour barriers, house wrap, and other types of air ducts in areas like kitchen and factories.

Ideal for sealing fabricated joints and seams of sheet metal air ducts, fibreglass duct board, thermal insulation, crawl space vapour barriers, house wrap, and other types of air ducts.

# SILICONE SEALANTS

## VT-200 Multi Purpose Sealant

A one-component, high performance industrial grade, 100% acetic cure silicone sealant formulated for glazing and sealing applications where long term reliability is required.

- FDA 21 CFR Part 175.300 (Food contact safe) compliant
- Industrial grade
- Permanently flexible
- Indoor and outdoor use

## VT-201 All Purpose Sealant

A one-component, versatile, acetic cure silicone sealant formulated for glazing and sealing applications where long term reliability is required. It will form a waterproof seal on many common wet area building materials.

- ASTM C920 (Class 25) compliant
- Versatile sealant
- Permanently flexible
- Indoor and outdoor use

## VT-202 GP Sealant

A one-component, acetic cure silicone sealant formulated for use in a broad range of applications. It will form a waterproof seal on many common wet area building materials.

- Versatile sealant
- Durable and flexible
- Indoor and outdoor use

## VT-210 / VT-210S High Performance Sealant

A one-component, high performance, 100% neutral cure silicone sealant formulated to give excellent adhesion and durability. It has excellent resistance against outdoor weathering, vibration, temperature extremes etc.

- LEED v4.1 EQ Credit: Low-Emitting Materials compliant
- ASTM C920 (Class 50) compliant
- AS/NZS 4020:2005 (Potable water test) compliant
- FDA 21 CFR Part 175.300 (Safe food contact) compliant
- ISO11600 (F Class 25 LM)
- Excellent weathering resistance
- Permanently flexible
- Indoor and outdoor use
- Singapore green building product labelling scheme complaint

# SILICONE SEALANTS

## VT-211 / VT-211S Weatherproofing Sealant

A one-component, high performance, 100% neutral cure silicone sealant. It has excellent resistance to outdoor weathering, vibration, temperature extremes, etc.

- LEED v4.1 EQ Credit: Low-Emitting Materials compliant
- ASTM C920 (Class 50) compliant
- Weatherproof seal
- Permanently flexible
- Indoor and outdoor use
- Matte finish
- Singapore green building product labelling scheme complaint

## VT-212 Sanitary Sealant

A one-component, neutral cure silicone sealant formulated for excellent mildew resistance. It will form a durable and waterproof seal on most common wet area building materials.

- ASTM G21 tested (Anti-fungus)
- ASTM C920 (Class 25) compliant
- FDA 21 CFR Part 175.300 (Food contact safe) compliant
- Permanently flexible
- Indoor and outdoor use

## VT-214 Polycarbonate Sealant

A one-component, 100% neutral cure silicone sealant specially formulated for polycarbonate bonding. It bonds well on polycarbonate with anti-scratch or anti-UV coatings, and will not discolour standard polycarbonate material. Not to be used for structural glazing applications.

- Excellent bonding on polycarbonate
- Permanently flexible
- No discoloration to polycarbonate
- Indoor and outdoor use

## VT-218 / VT-218C Glass & Metal Sealant

A one-component, neutral cure silicone sealant formulated to give excellent adhesion and durability. It has excellent resistance to outdoor weathering, vibration, temperature extremes etc.

- ASTM C920 (Class 25) compliant
- Excellent adhesion
- Permanently flexible
- Excellent weather resistance
- Indoor and outdoor use

Applications

General glazing (glass, aluminum, plastic etc.), curtain wall sealing, and general sealing (aquarium, skylights, ventilators, air conditioning etc.).

General sealing applications on various substrates (glass, aluminum, plastic, metals etc.).

General sealing applications on various substrates (glass, aluminum, plastic, metals etc.).

Sealing metal lap joints in roofing, guttering, and cladding applications. It can bond to most common building materials (aluminum, glass, galvanized iron, concrete, painted surfaces and mirror bonding etc.).

Applications

Strong weatherproof seal on most common building materials (aluminium, galvanized steel, painted surfaces, glass, brick, concrete, etc.). Widely used to seal external aluminium composite panels.

Warm areas with high humidity (bathrooms, toilets, kitchen etc.). It will bond on most building materials (ceramics, glass, aluminum, plastics etc.).

Bonding and sealing of polycarbonate and other plastic sheet materials in roofing applications. It can bond to most common building materials (aluminum, glass, galvanized iron, concrete, painted surfaces etc.).

Wide range of glazing, weather sealing, and other applications, including sealing metal lap joints in roofing, guttering and cladding applications. It can bond to most common building materials (aluminum, galvanized steel, painted surfaces, glass, concrete etc.).

# FIRE RATED SEALANTS

## VT-219 Fire Rated Silicone Sealant

A single-component, gun-grade, ready-to-use neutral silicone sealant formulated to form an elastomeric fire retardant seal in construction applications. It helps control the spread of fire, smoke, and toxic fumes within a given area surrounded by firewalls for a period of up to four hours, depending on joint configuration.

- Fire rating up to 4 hours (EN 1366-4: 2006)
- ASTM C920 (Class 50) compliant
- Excellent weather and UV resistance
- Excellent adhesion to most substrates
- Matte finish

## VT-629 / VT-629S Fire Rated Hybrid Sealant

A single-component, moisture-curing sealant based on advanced MS Polymer technology that provides movement capability in fire rated joint applications. It is compliant with fire rating specification of BS EN 1366-4:2006.

- 4 hours fire rating (BS EN 1366-4:2006)
- ASTM C920 (Class 25) compliant
- Good UV resistance
- Paintable
- Low static charge – Less dirt streaking
- Silicone oil-free – Non-staining on adjacent substrates
- Isocyanate-free – No air bubbling
- Solvent-free – No shrinkage

## VT-228 / VT-228S Fire Retardant Sealant

An acrylic-based firestop sealant for fire-rated joint applications. It is rated up to 4 hours with BS EN 1366-4: 2006 specification. It is suitable to seal gaps where slight movements are expected.

- 4-hour fire rating (EN 1366-4: 2006)
- Smoke, fume, and water resistant
- Easy clean up

## VT-288 Fire Rated Duct Sealant

A fire resistive, water-based indoor/outdoor air duct sealant. It performs as a tough and flexible adhesive and sealant on the joints and seams, thereby effectively blocks the infiltration of gases, dust and other contaminants and the exfiltration of conditioned air. It is able to accommodate minor vibration and movement, stays flexible and does not crack.

- Fire resistive (conforms to UL94 HB flammability test)
- LEED v4.1 EQ credit: Low-emitting materials compliant
- Low VOC and low odour
- Excellent workability
- Crack and peel resistant
- Slump resistant
- High solid content

# PU SEALANTS / PU FOAM / PRIMER

## VT-260S LM PU Sealant

A one-component, low modulus polyurethane sealant formulated for construction joint sealing applications. It is flexible seal capable of cyclic expansion and compression movement of 50% (±25%) of the original width. It is virtually unaffected by normal weathering conditions such as rain, UV radiation, snow, atmospheric contamination and pollution etc.

- Durable and flexible
- Non-staining
- Paintable

## VT-655 Auto Glass Sealant

A moisture-cured, high modulus polyurethane sealant formulated for windscreen bonding applications. It is silicone-free, and has excellent resistances against weathering, temperature extremes and airborne pollutants.

- Excellent adhesion
- Fast curing
- Good green strength
- Paintable when dried

## VT-268 / VT-268GG PU Foam

A one-component, rigid polyurethane foam for general purpose applications in filling, sealing, insulating, and soundproofing gaps of various construction materials.

- Ozone-friendly propellant (CFC-free)
- Good expansion yield
- Non-sagging
- Good thermal and acoustic insulation
- Mildew, water and aging resistant

Applications

A single-component, gun-grade, ready-to-use neutral silicone sealant formulated to form an elastomeric Recommended for firestop sealing of interior and exterior building and construction movement joints or openings, where a fire rating of up to 4 hours is required. In addition, it is used in mechanical, electrical, and plumbing applications like sealing openings through fire-rated ceiling, floor or wall.

Sealing interior and exterior movement joint where a fire rating of up to 4 hours is required in precast and in-situ concrete, expansion and construction joint, brick and fibre cement board etc. It is also used for sealing joints on voids and irregular holes in fire walls, partitions and other structures.

Indoor joints with fire retardant requirements (joints between walls and ceiling, joints around pipe and cable work, perimeter sealing of fire rated doors and windows). It has good adhesion on most construction materials (concrete, bricks, painted wood, aluminum etc.).

Ideal for sealing fabricated joints and seams of sheet metal air ducts, fibreglass duct board, thermal insulation, crawl space vapour barriers, house wrap, and other types of air ducts.

Applications

Well-suited for insitu concrete, precast and tilt up panel, brick, plaster board, aluminum window, granite, marble, GRC, fiberglass, water tank, clean room etc.

Specially formulated for windscreen bonding applications. It has a high green strength, thus suitable for glass bonding in trains and coachwork.

Ideal for filling irregular holes or awkward gaps, heat insulation of central heating systems, and insulating wall panels. Suitable for use on various construction materials (concrete, brick, most plastics, metal, glass, woods etc.).

# ADHESIVES

## VT-420 Vital Band

A black bituminous compound covered by a reinforce aluminium film. It is a versatile self-adhesive tape for instant flashing applications. It is ready to apply, weatherproof, with outstanding durability and is economical.

- Bituminous Instant Flashing Tape
- Reinforce aluminum film
- Waterproof
- Outstanding Durability
- 50mm (1m, 3m, 10m)
- 75mm, 100mm, 150mm, 300m (10m)

## VT-428 Vital Flash

VitalFlash is a versatile and waterproof dry fix solution that is specially formulated to adhere to the various conditions necessary for roofing applications such as abutment as well as ridge and hip. VitalFlash is also UV resistant due to the colored outer layer, designed to match the common roof colors.

- Bitumen Flashing Tape
- Adheres well to most construction materials
- Simple installation
- Neat finish
- Easy to use
- Economical
- Colour - Maroon & Black

## VT 133 Vital Nails

A one-component, high performance, paste-like construction adhesive sealant formulated to bond a variety of common construction materials. It has strong initial grab, superior adhesion and will not slump on vertical surfaces.

- Excellent adhesion
- Strong initial grab
- Bonds most materials
- Does not slump

# OTHERS

## VT-920, VT-921, VT-922

V-Tack is an ever-tacky, reusable putty sealant that provides a safe and clean alternative to pins and tapes for various uses at home, school or office. V-Tack can be completely removed without damaging painted surfaces. By folding and kneading the used adhesive putty, V-Tack becomes sticky again and ready for reuse.

- No nail, pin, tape and tacks
- Clean, safe and easy to apply
- Fast and clean bonding
- Removable and reusable
- Non-toxic

## Selleys RP7

RP7 is a multi-purpose lubricating and penetrating spray.

- Displaces water (remove water layer)
- Prevent corrosion
- Loosens rusted parts
- Stop squeaks
- Protect all metal surfaces by providing a protective barrier against corrosive environments, such as moisture (water).
- Suitable for household, automotive, marine, farm, industrial and building use.

Applications It is used for roof repair, sealing around chimney and sealing gutter leaks.

Roof abutment, sealing around chimney and roof ridge.

It is used on board and panels, bonding mirror, wood skirting and polystyrene.

Applications NA

Packaging 100mm x 10m  
300mm x 10m

NA

Packaging 35gm, 50gm & 75gm

420ml and 105 ml pack size

# PAINTING SOLUTIONS FOR YOUR HOME

**NIPPON PAINT SATIN GLO PRIME** luxury interior emulsion is based on pure acrylic emulsion formulated to impart high sheen to decorate interior walls. It possesses excellent washability and stain resistance to keep the walls beautiful. Its low VOC ensures safe and healthy interiors and anti-bacterial properties provides protection against bacteria.

**NIPPON PAINT KIDZ** all-in-one paint is specially formulated for children. It has three unique features and technologies - clean air due to active carbon technology, safe to touch due to silver ion technology and superior washability due to anti-stain technology.

**NIPPON PAINT MATEX GOLD** is a premium acrylic emulsion which provides a smooth sheen finish to interior walls. It delivers excellent coverage, possesses good washability and has low VOC hence maintaining a healthy home.

**NIPPON PAINT BREEZE** is an economy interior emulsion having a smooth finish.

**NIPPON PAINT ROOF COATING EMULSION** is an acrylic emulsion that is specially formulated for painting and repainting asbestos and roof tiles. It is easy to apply and forms a smooth, tough, durable film with excellent sheen. It is also resistant to fungi, algae, water and dirt.

**NIPPON PAINT CEILING FRESH** is a specially formulated paint based on modified acrylic emulsion with smooth matte finish for interior use. The paint changes colour from pink to white as it dries so that the applicator never misses a spot.

**NIPPON PAINT WEATHERBOND PRO** is a high performance, pure acrylic exterior paint which offers outstanding protection for exterior surfaces. It offers unique protection against water, algal attack, dust pick-up, hairline crack bridging, efflorescence and extreme weathering. It provides effective waterproofing and anti-carbonation properties.

**NIPPON PAINT LATEX INTERIOR PRIMER** is water-based and is formulated to provide good adhesion to interior masonry and cement surfaces. It has good hiding properties and is easy to apply.

**NIPPON PAINT SPOTLESS NXT** is a specially formulated acrylic emulsion that repels household stains such as tea, coffee, juices, ink, etc. Its stain repellent property makes it highly resistant to the penetration of water-borne stains, and causes them to form beads. This 'beading effect' ensures stains don't stick and can be removed easily without damaging the paint. Its high quality makes it suitable for all rooms.

**NIPPON PAINT SATIN GLO+** is a luxury interior wall finish specially formulated to impart a rich satin like sheen to decorate interior walls. It possesses excellent washability and stain resistance to keep the walls beautiful for long. Its anti-bacterial property provides proven protection against bacteria and ultra low VOC ensures safe and healthy interiors.

**NIPPON PAINT FLOOR GUARD** is a superior quality paint, which is specifically developed to provide hard, durable adhesion. It acts as an acrylic emulsion coating for cement and paver blocks. It has excellent alkali resistance properties, and provides protection against weathering elements.

**NIPPON PAINT VINILEX** is a specially formulated water-based modified acrylic emulsion paint for interior walls. It is durable, washable and provides a superior smooth finish. It offers good hiding and spreading qualities.

**NIPPON PAINT AIRCARE VG** is an ultra luxury anti-microbial and anti-formaldehyde interior emulsion that helps to create a safe and more hygienic indoor environment. This breakthrough product contains Unique Absorption Technology - (UAT) that continually absorbs harmful formaldehyde from the air and is embedded in Polymer backbone, resulting in clean fresh air. It is enriched with Silver Ion Technology which gives superior anti-bacterial performance and is effective against viruses\*. It is ideal for people who are allergic to formaldehyde and paint odour.

**NIPPON PAINT BODELAC** is a specially blended, alkyd-based synthetic enamel. It has no added lead or chrome compounds, thus making it safe. It has excellent gloss retention and is suitable for a wide variety of interior and exterior metal, wood and masonry surfaces.

**NIPPON PAINT SATIN ENAMEL** is a specially blended enamel paint that protects and beautifies interiors, exteriors, wood, metal and masonry surfaces. It imparts a rich, satin finish with a soft sheen and forms a layer which is tough, washable and long-lasting. It is resistant to alkali, stains and water.

## EXTERIOR PRODUCTS

**NIPPON PAINT WEATHERBOND ADVANCE** is an all weather protection exterior paint which possesses a unique lamination technology with silicone, providing twice the toughness and durability resulting in supreme protection against harsh weather conditions. It provides excellent resistance to flaking, efflorescence and alkali. It has ultra low VOC ensuring a safe environment.

**NIPPON PAINT DURAFRESH SOLO** is a specially formulated self-priming exterior emulsion having systematic UV crosslinking mechanism exhibiting excellent balance of flexibility and dirt pick-up resistance. Its heat ban technology reduces surface temperature by up to 7°C. It imparts a rich sheen finish and has anti-algal resistance to keep your walls fresh for a longer time.

**NIPPON PAINT SUMO XTRA** is a specially formulated water-based exterior emulsion with colour-lock technology which ensures that the colour stays bright and clean. Its unique water resistant property keeps your exterior walls protected and beautiful for long.

**NIPPON PAINT SUMO XTRA** is a specially formulated water-based emulsion with colour-lock technology which ensures that the wall looks bright and clean. Its unique water resistant property keeps exteriors protected and beautiful for long.

**NIPPON PAINT SAMURAI** is a specially formulated water-based acrylic emulsion paint ideally suited for dry and moderately humid climatic conditions. It is anti-peel, anti-fungal and resists fading. It is durable and offers good hiding and spreading.

**NIPPON PAINT SHOGUN** is a specially formulated acrylic modified based exterior emulsion paint suitable for dry and less humid weather conditions. Its superior ingredients ensure that the exterior wall is protected from algal and fungal attack hence keeping it spotless for long.

**NIPPON PAINT LATEX EXTERIOR PRIMER** is water-based and is specially formulated for exterior cement, concrete and plastered surfaces. Its unique formula provides extra protection to the top coat. It is also algal and fungal resistant.

**NIPPON PAINT SUMO XTRA TILE COAT** is an acrylic paint which is specially formulated for painting roof tiles. It is easy to apply and forms a smooth, tough film, which is durable.

**NIPPON PAINT ATOM 2-IN-1 EMULSION** is a flat and durable paint which makes it ideal for both interior and exterior surfaces. Following extensive R&D and by listening to our decorative partners inputs, this dynamic paint has been developed for maximum performance which is based on acrylic modified emulsion.
